Think

The pre-image and the image after a translation coincide. What can you say about the translation?

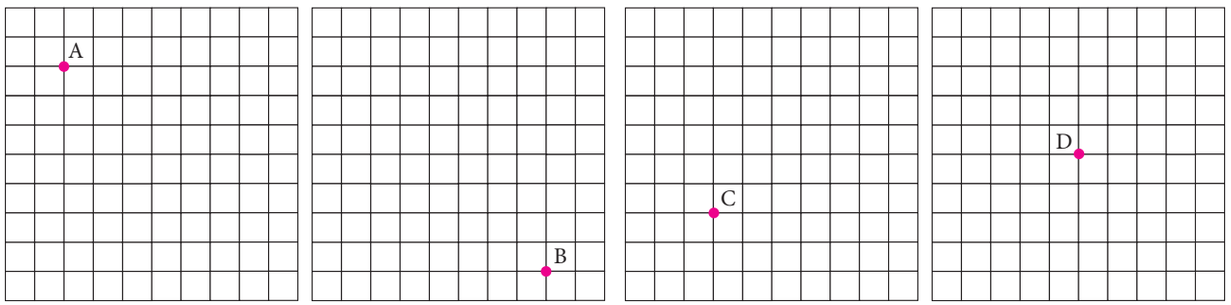

Activity

A	B	C	D	E	F
G	H	I	J	K	L
M	N	O	P	Q	R
S	T	U	V	W	X
Y	Z	*	*	*	*

Here is a letter grid. Start with Square A. From A move 5 units right then 2 units down and stop. Then move 3 units left then 2 units up and stop. What mathematical word you get?
Start at square L. Move 3 units left and stop. Then move 1 unit left and 1 unit down and stop. Then move 3 units right then 2 unit up and stop. What mathematical word you get?
Give instruction to get (i) Right (ii) Angle (iii) Work (iv) Hard

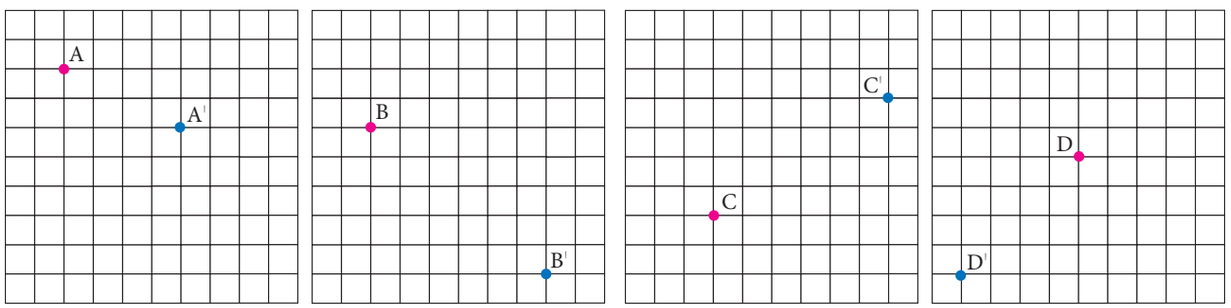

Example 4.1 Find the new position of each point using the translation given.

(i). 4 → 2 ↓ (ii). 6 ← 5 ↓ (iii). 6 → 4 ↑ (iv). 4 ← 4 ↓

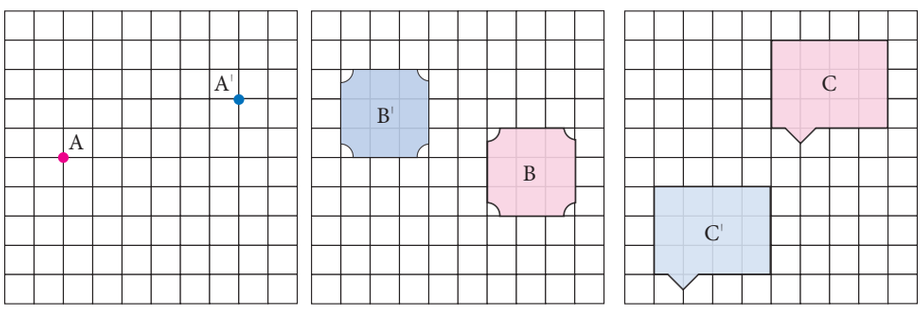

Solution:

(i) (ii) (iii) (iv)

Example 4.2 How is the pre-image translated to the image?
