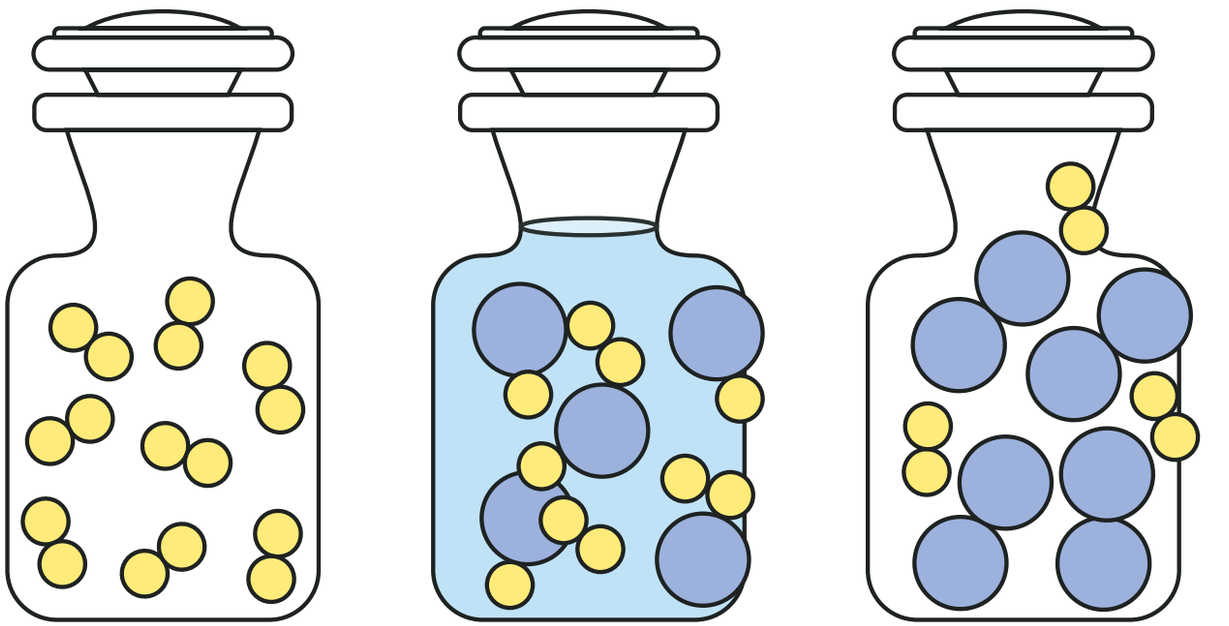
Unit 3

Matter Around Us



Element (Hydrogen) **Compound (Water)** **Mixture (Hydrogen & Oxygen)**

Learning Objectives

After studying this unit, students will be able to:

- know about the molecules of elements and compounds.
- write the symbols of common elements.
- calculate the atomicity of commonly used elements.
- know about the occurrence of elements and compounds in nature and human body / air.
- understand the effects of temperature on solid, liquid and gas.
