where hundreds of different cultures meet, blend and creating a new culture.

Eskimos live in the very cold and inhospitable region where plenty of fish varieties are available. They were able to dress themselves in thick warm clothes made of fur, they live in igloos.

Eskimos

Igloos

Their lives were very simple and they could not alter the environment to any extent. They specially designed a house by ice and is known as igloos.

Transport

North America has developed a well-designed network of roadways (freeways) railways, waterways and airways.

A) Roadways

North America especially USA and Canada have the best laid roadways in the world. They are made of Asphalt and Concrete roads can be used in all weather conditions. The Super Ways (or) Free ways make travelling easy and fast. The Pan American highway runs from Alaska in the far North west to Panama in the south.

B) Railways

North America is extensively served by an efficient network of railway. Tarns-Continental railways and Tarns-Canadian railways are link the east and west coast of Canada and United States. Chicago has the biggest railway junction in the world. The New York railway junction is one of the busiest railway stations in the world.

C) Waterways

The Great Lakes region along St. Lawrence and Mississippi rivers are the most important inland waterway in North America. Quebec City, Montreal, Boston, New York, Philadelphia, Charleston and New Orleans are some of the important inland ports. New York is the most important port along the East coast. Vancouver and San Francisco are important ports on the West Coast of North America.

Panama Canal: In 1914 a Canal was cut across the Isthmus of Panama for 80 kms long which connects the Atlantic with Pacific Ocean.

Panama Canal

It greatly reduced the distance between Europe and the West Coast of North and South America.

D) Airways

Airways provide in valuable means of transport. All the cities and industrial centres in North America are linked by airways.
